Solar Eclipse Social Story

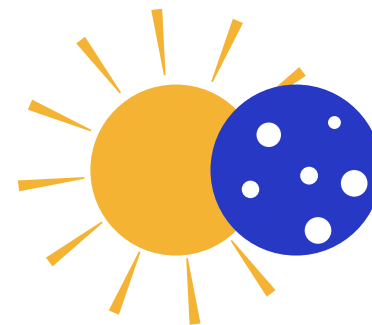

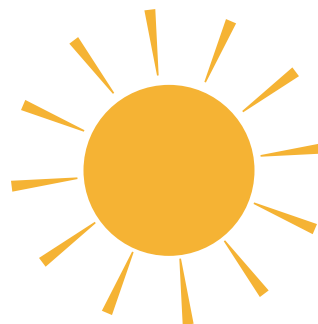

Instructions:
bit.ly/4bgwDCu

We will have a solar eclipse. What happens during a solar eclipse?

The moon passes in front of the sun, blocking the sun's light for a few minutes.

1

2

Find more fun educational resources and materials at PBSKIDS.org!

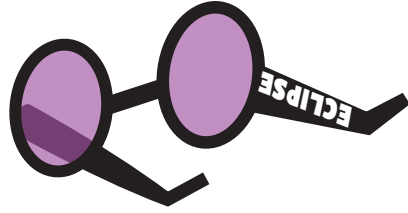

9

Podemos verlo en una pantalla tal como una televisión, computadora o tableta.

doblar

5

Si queremos ver el eclipse debemos usar lentes especiales.

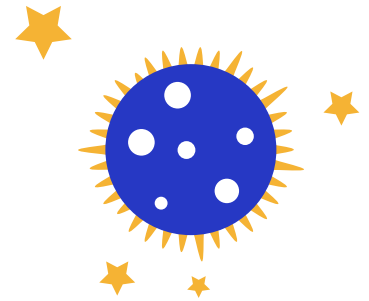

cortar

4

No podemos mirar directamente al sol durante el eclipse. No es seguro para nuestros ojos.

3

El cielo se oscurecerá, pero una vez que la luna pase junto al sol, el sol volverá a salir.
